CUT FLOWERS IN SEASON

VISITORS WELCOME

NEAR FLOATING BRIDGE

34 MAPLE ST.,

EAST LYNN, MASS.

Perennial Phlox

Our Phlox are all very choice kinds.

THOR. New. A most beautiful and lively shade of deep salmon pink, overlaid with a scarlet glow and a light almost white halo around its aniline red eye. One of the very best.
25¢ each, \$2.50 per doz., \$15. per hund.

BARON VON DEDEM. Brilliant cochineal red with salmon shadings medium height. 15¢ each, \$1.50 per doz.

RHEINLANDER. A beautiful salmon pink color intensified by a very decided eye of deep claret red. Flowers and truss of immense size. 15¢ each, \$1.50 doz.

P. FORDHAM. New and rare. Fine pure white with a soft pink eye. Flowers larger than a silver dollar. 25¢ ea. \$2.50 dz.

EUROPEA. The flowers as well as the truss are very large and distinct. Height, medium. White with very decided carmine crimson eye. 15¢ each, \$1.50 doz.

FRAU ANTON BUCHERER. Medium height. White, largest trusses and flowers. Fine. 15¢ each, \$1.50 doz.

| | | |
|-----------------------------|---|-----|
| ELIZABETH CAMPBELL. | Very bright salmon pink with lighter shadings, and dark red eye; most beautiful, and is probably the handsomest Phlox in cultivation. | |
| Height, 18 in. | | .25 |
| COQUELICOT. | A fine, pure scarlet with crimson eye, bright and showy. 2 ft. | .15 |
| VON LASSEBURG. | Flowers of remarkable substance. purest white and largest of flowers. 20 in..... | .15 |
| ANTOINE MERCIER. | Light ground color, one-half of each petal suffused bluish lilac. A fine, large flower, 20 inches. | .15 |
| E. F. DWYER'S No. 1. | White, with a very distinct violet eye; large flower, very large panicle; strong grower. | .15 |
| FLOATING BRIDGE PINK. | A very fine shade of pink. Large. 2½ ft..... | .15 |
| MAD. PAUL DUTRIE. | Delicate, lilac rose shade, like a soft pink orchid; flower large, borne in immense panicles. 20 in. | .15 |
| R. P. STRUTHER (Struthers). | Bright rosy carmine, with claret red eye. 2½ ft..... | .15 |
| GEN. CHANZY. | Fiery red, good stems..... | .15 |
| LE MAIDI. | Violet blue, probably the best of this color. 2 ft..... | .15 |

Fifteen cent varieties, \$1.50 per doz., \$10. per hundred.

Twentyfive cent varieties, \$2.50 doz., \$15. per hundred.

ONE OF EACH: 16 PHLOX, \$2.30

LE GRAND MANITOU (EXACT SIZE)

CLASSIFICATION OF DAHLIAS

CACTUS DAHLIAS are distinguished by their long, twisted or pointed petals.

DECORATIVE DAHLIAS include loose flowering varieties which are full, or nearly full, to the center with broad, nearly flat petals.

SHOW DAHLIAS. Applies to those varieties producing large, round, quilled, well formed flowers showing only solid colors, but many frequently have shaded tips.

FANCY DAHLIAS include nearly all round, variegated, quilled varieties, although the lines are not definitely drawn between the Show and Fancy varieties.

POMPON DAHLIAS. This class embraces the small, round, miniature Dahlias, the plants of which are generally of the dwarf habit.

PAEONY FLOWERED OR ART DAHLIAS are of immense size and have two or three rows of petals.

SINGLE DAHLIAS have but a single row of petals.

COLLARETTE DAHLIAS This class of dahlias has one row of petals like single Dahlias, and in addition have a collarette of small petals around the yellow center of the flower.

NOTE.—There are different opinions about the division of some classes, and the above rules apply in general terms.

We supply all dahlias in strong roots, but as the season advances and our supply in this form becomes exhausted, we will send live, growing plants instead. These give good results.

Many experienced growers use plants only.

Our dahlias are selected from hundreds of kinds, and are among the best the world has produced. We have many kinds not catalogued. Please send your order for anything that you want.

Order early and send cash with order, by Express, P. O. Money Order or Registered Letter

The earlier you send your order the surer you are to get what you want. Send now.

We know we can please you.

CULTURAL DIRECTIONS.

A sandy or light soil is best for dahlias, but they will do well in any soil not too wet. Spade and lighten the soil thoroughly one or one and one-half feet deep.

In this latitude plant from May 12th to June 30th. Do not plant near trees. Plant in a good sunny situation. Dig holes eighteen inches deep, put in six inches of rotten manure and cover six inches deep; lay the bulb on its side and cover lightly at first and fill in later. If the ground is naturally moist plant near surface and cover with sand. Dahlias like lime and cut worms do not. Protect from cut worms by putting a paper collar around the dahlia stem as soon as the stem begins to show. Try digging Mr. Cutworm out.

Look for cutworms as soon as the sprouts show above ground.

Plant pompons 2 by 2½ feet and others 3 by 4 ft. apart. Keep the soil light and free from weeds. Dahlias enjoy having their foliage sprayed often. Do not let the soil dry more than two inches deep and do not keep the ground wet all of the time.

A EDWARD F. DWYER & SON, E. LYNN, MASS.

Water by making a small furrow and running the water in the furrow from one plant to another. We trim out every other branch and two thirds of the buds. In August and September keep the ground covered with a heavy mulch of stable manure or a small handful of ground bone and nitrate of soda, four parts bone and one part nitrate of soda. Wood ashes are good, or get some good commercial fertilizer and apply a good handful every two weeks, beginning late in August and continuing to October.

Grow to one stalk only.

We guarantee all tubers true to name, and their arrival in good condition with one or more sprouts or eyes showing life. We take great pains and carefully inspect every tuber before we send them out, but if on arrival you find any defective and will kindly return same to us, we will gladly replace them, free of charge. Our responsibility then ceases. Cash must accompany each order. Cover with damp earth as soon as received or we cannot guarantee them to grow. Place your order early, directing us when to send them.

TARNISHED PLANT-BUG ON DAHLIAS.

What can I do to prevent an insect or bug from working in the buds of my Dahlias just before the flower opens, destroying or injuring the bud so it does not open or bloom? I have noticed for three or four years our Dahlias would have plenty of buds, but would not open or flower. I found an insect working in the bud which seemed very shy, and upon being disturbed, flew away. Last year from 50 plants, had only five flowers.

The maurader is, no doubt, the Tarnished plant-bug, which is extremely destructive to Dahlias in some localities. Its control is difficult, as the adults, which are brown and dull yellow, about one-fifth of an inch long, are too active to be affected by insecticides. The young nymphs may be killed with seven per cent. kerosene emulsion or tobacco extract. The only other means of control is to clear up and burn all rubbish in the Fall, as the bugs hibernate in crop remnants. The insect pierces the young bud shoots and sucks the sap. The shoots are blackened and distorted, and the injury causes new side shoots to form, which often suffer the same way. Where flower buds develop, they are blasted or one-sided. Clean up all rubbish left around the garden and burn it; you will destroy many other enemies besides this plant-bug.

SEVN BARGAINS AT \$1.00 EACH.

These are all good kinds of our own selection.

- No. 1. 15 Dahlias all named and tagged, all different.
- No. 2. 15 Cannas all large flowering in 4 to 5 different kinds.
- No. 3. 10 Iris in 12 choice varieties.
- No. 4. 10 Perennial Phlox all choice varieties of different colors.
- No. 5. 10 Hardy plants of 10 different kinds and all good kinds for the hardy garden.
- No. 6. 50 Mixed gladiolas.
- No. 7. 15 Named gladiolas, best named varieties in 4 different colors.

A Cactus

| | | |
|---|---|------|
| 2 | AMBER QUEEN—new, a bold, large flower of a rich amber suffused with scarlet, very attractive and free flowering, | .35 |
| 3 | ADVANCE—considered the largest scarlet. Ideal exhibition flower, | .25 |
| 8 | ATTRACTION. A splendid exhibition flower. Its pleasing shades of lilac and rose, large size, wide, curling petals and long straight stems, make it an attractive flower of rare merit | 1.00 |
| 9 | AURORA—cream center, shading to amber and through tints of pink to white tips. Large and fine for exhibition, | .20 |

A Decorative

| | | |
|-----|---|------|
| 301 | A. E. JOHNSON. The ground color is white or light blush, overlaid with clear rose-pink; very large, and one of the finest. h. 4, s. 12, dia. 5 | .25 |
| 303 | AMERICAN BEAUTY. An improvement on Jack Rose. large and free; color, a rich ruby red; center perfect | .25 |
| 304 | A. W. WARREN. (Warren). One of the largest. Pure deep yellow | .75 |
| 305 | ALBERT MANDA. The largest dahlia grown. Took first prize at National Dahlia Society for the largest dahlia. The stem with us is good and strong, but not very long. Color beautiful. Shades of lemon, pink and white..... | 1.00 |

A Show

| | | |
|-----|--|-----|
| 601 | A. D. LIVONI—a beautiful pink, full, early and profuse. one of the best for cutting, | .15 |
| 603 | ACQUISITION—a rich shade of purple lilac, large and full, best of its color. Stems good, | .20 |
| 609 | ARABELLA—large, early, profuse and of perfect form. Pale primrose tipped old rose and lavender; good, | .15 |

B Cactus

| | | |
|----|--|-----|
| 17 | BRUNHILDE. Rich, plum, very fine, h. 3½, dia. 4, S. 12 | .15 |
|----|--|-----|

B Decorative

| | | |
|-----|---|-----|
| 313 | BELoit. Our experience of several years proves to us that this dahlia stands in a class by itself. Its strong stems are from two to three feet long. The flowers very large and massive, of splendid form. Color a rich purplish garnet. Blooms great in poor as well as good years. | .50 |
| 320 | BOBBIE BURNS. (J. J. Marshall.) This new dahlia of our own introduction is a seedling of that justly popular dahlia Mrs. Roosevelt and like the doughty colonel is one to be reckoned with. The color is a most beautiful rich, deep clear pink, without any suggestion of mauve. After comparing it with some of the best decorative pink dahlias of today, we and our friends have concluded that its freedom of bloom, its splendid stem, the purity and richness of coloring, its large size and its elegant form, entitle it to be recommended as a first class dahlia | .50 |

C Cactus

- 210 CANDEUR. A wonderful pure white, which in the fully developed flower more closely resembles an incarved Chrysanthemum than any other sort; it is of fair size, produced freely on good stems and a valuable cut flower, h. 4, S. 12, dia. 535
22 CREPUSCLE. Yellow deepening to amber buff. Fine form35
24 COUNTESS OF LONSDALE—rich salmon tinted apricot. On account of its many exceeding good qualities it is simply indispensable,15
25 COLUMBIA. Vermillion, white tips..... .15

C Decorative

- 323 CREAM. KING. A distinct and very beautiful shade of cream and primrose. Very large and good: quite one of the best: Stem good \$1.00

C Show

- 620 CALEB POWERS. A delicate shell pink highly recommended; said to be early and of good form,25

D Cactus

- 33 DAINTY. Very novel lemon yellow mingled with rose pink, good size, form and stem,25
34 DR. MENE—very free and vigorous, flowers carried well up. Color salmon-amber shading to sulphur yellow in centre,35
37 DWYERS MOONLIGHT. A dahlia of great merit; light yellow of a distinctly attractive, pleasing shade and form75
38 DR. G. G. GREY—color, crimson scarlet, petals long, narrow and numerous.25

D Decorative

- 332 DR. PHIPPEN. T. Murphy. A golden red of mammoth proportions; has been grown over 8 inches and of great depth 1.00
333 DELICE—its beautiful soft, yet lively color, a glowing rose pink, together with its perfect shape, stout, stiff stems which hold the flowers well above the foliage, and the fact that the cut flowers remain fresh a long time, render it one of the best dahlias we know of,25
335 D. M. MOORE. A flower of mammoth size, produced in profusion on long, stiff stems. Its color is a very deep velvety maroon. It has no equal in its color... .25
341 DOROTHY FLINT. (Flint). A Salem dahlia of rare quality and exquisite coloring, being a blending of salmon and pink, with a yellow stripe running through the centre. The flowers are from six to seven inches in diameter, borne on good stems in abundance..... 1.50

D Show

- 606 DR. KIRTLAND (Cuban Giant). Dark rich purplish crimson; large; on long stems: a good cut flower... .15

| | | |
|-----|--|-----|
| 607 | DREER WHITE. A fine large, beautiful dahlia of glistening white resembling Grank Duke Alexis. Very free flowering, on long graceful stems. dwarf bush, | .20 |
| 608 | DR. KEYNES. Buff, shaded red; large flowers, with a fine, close, perfect centre, making it an exhibition variety | .25 |

E Cactus

| | | |
|----|---|-----|
| 44 | EDITH CARTER. Yellow, heavily tipped bright deep rosy carmine, held above the foliage. Very showy and satisfactory | .75 |
| 45 | EMPEROR. This is a hugh cactus, the flowers being both deep and massive, very incurved in form, and with a perfect everlasting centre. The color is a striking shade of purplish-crimson, but at the base the petals are white, which produces a more or less decided light disc around the unopened center petals,.. | .50 |

E Show

| | | |
|-----|--|-----|
| 643 | EMILY—a very attractive, large, free flowering dahlia, of fine form, a delicate lavender, overlaid with white. The bush is delightfully sturdy and good to look at, of distinct appearance. | .15 |
| 644 | ESMOND—an extremely well formed, large, yellow, | .25 |
| 645 | ESTELLE CHRISTY (Johnson). The originator says this excellent variety is the best yellow shown in cultivation. It is a free bloomer. 5 ft..... | .50 |

F Cactus

| | | |
|----|--|-----|
| 51 | FLIEDER—large, perfect flower with a new shade of soft lilac to white, very beautiful, h. 5, S. 12, dia. 5 | .25 |
| 52 | FAUNUS—ground color, straw yellow shading to rosy scarlet. Petals long and narrow. Flowers large, early and free. | .25 |
| 53 | F. A. WELLESLEY. Large, full, with long, incurving petals of a bright crimson scarlet..... | .15 |
| 54 | FLORA. An ideal white Cactus Dahlia. A large heavy flower, produced on stout, stiff stems; makes it valuable for cutting | .25 |
| 55 | FERNAND OLIVET. Bloomed fine in 1916, thus proving its ability as a free flowering dahlia. Stems good and stiff. Pleasing shade of brilliant maroon almost black in centre. | .25 |
| 56 | FLUFFY RUFFLES. (Stodard) Hybrid Cactus. Pink and white. Large, ruffled. New, | .50 |
| 58 | F. W. FELLOWS. This variety is said to produce huge flowers with surprising freedom. Color, bright orange scarlet throughout. The florets are numerous and narrow with stems and habit grand in every way .. | .75 |

Every season we discard faulty dahlias and add the best we can find in order that our customers may have the best the world affords.

F Decorative

- 356 FIREBURST. Said to be the largest decorative ever offered. Color intense scarlet, shaded orange. The centre is not as full as we like to see it. Price reduced from \$1.00 to50
 358 FRANCIS MARTIN. Large flowers of a soft shade of shell pink, quite distinct; splendid exhibition flower, .50

F Show

- 657 FRANK SMITH. One of the best of the fancies; a rich dark purplish maroon tipped pinkish white, these colors blend into each other, forming a most beautiful combination of shades and tints,25

G Cactus

- 640 GOLDEN GATE. New. Deep golden yellow, overlaid with bronze; strong, healthy grower and highly recommended by some growers. Stem crooked, dia. 625
 650 GWENDOLINE TUCKER. Fine, very large and freely produced. Did well in 1916. Pale, flesh pink nearly white in centre. Erect habit. Stems right.
 65 GONDOLA—free blooming, fine pink, of good size and shape,35
 66 GUNTHER. A splendid, pure white, with broad, twisted petals of the very purest, held well above the foliage on stiff stems. A delightful flower..... .25
 670 GELBER PRINZ. Flowers of large size, fine form, full centre, keeps splendid when cut. The best deep yellow35
 671 GENOVEVA. One of the freest flowering primrose-yellow varieties yet introduced; fine for cutting25
 688 GREAT WESTERN. A large, noble flower of excellent quality. Color, bright purple. It blooms the whole season through,30
 69 GLORY OF WILTZ. We confess we would like this dahlia better if it had a stronger stem, but its freedom of bloom, its glorious glittering yellow, its large size and elegant form, combine to place it in a class by itself25

G Decorative

- 361 GOLDEN WEST. One of the best, large primrose-yellows, very full double flowers with petals cleft at the tips; very free-flowering35
 362 GIANT PURPLE. Large and full centered; with long stems, 4½ ft.,..... .50
 363 GIGANTEA—soft sulphur yellow, petals short and plentiful making a large compact flower.25
 364 Gov. FLOYD. A fine large flower, high center and long stout stems, color white, striped with reddish violet. A grand flower for exhibition,50

G Show

- 661 GEN. MILES. Is simply immense, and takes everybody by storm. The flower is so large and massive, with such unique coloring that it is wanted by most everybody. Color lavender pink or light violet pink; heavy Striped and spotted with purplish Magenta..... .75

| | | |
|-----|--|------|
| 663 | GEN. MILES PURPLE. The same enormous flower as the regular Gen. Miles except that it is one of the richest and most beautiful purples without any other color. We expect and hope this sport will hold faithfully as it has come allright now for five years. We believe we are the only one to introduce this grand new sport | 1.00 |
| 664 | Gov. GUILD—new and scarce. We consider this the best pure white show dahlia ever put out. A flower of large size and very good form, a very profuse bloomer, on long stems; a grand one for cutting, | .35 |
| 665 | GRAND DUCHESS MARIE. New rich buff, overlaid orange | .50 |
| 666 | GOLD MEDAL—new, very striking, dandelion yellow streaked and splashed with oriental red, a most bizarre effect, | .20 |
| 667 | GLOIRE DE LYON—large, pure white. Some think this the best white show, | .20 |
| 668 | GLOIRE DE PARIS. An enormous flower of a deep red tinted evenly with violet, a magnificent full flower of splendid form. Will always be high priced | .75 |
| 669 | GRAND DUKE ALEXIS—large, massive flowers, ivory white with a faint tinge of rose at the extremities of the petals, which are of unique form as they are rolled so the edges overlap each other, | .15 |

H Cactus

| | | |
|----|---|-----|
| 73 | H. J. JONES—delicate primrose in center, beautifully shading to sweetest pink, large, | .20 |
|----|---|-----|

H Decorative

| | | |
|-----|---|-----|
| 375 | HORTULANUS FEIT. One of the best of the decorative or peony flower dahlias, of largest size, good form, color, stem and blooming qualities; of the most delicious shrimp pink, the tip of each petal touched with gold. It has a suffusion of delicate tints of red and yellow with a glowing softness difficult to describe. . . | .50 |
| 376 | HARVARD. (T. J. Murphy). A crimson red of large size fine form and tsem, free blooming | .75 |

H Show

| | | |
|-----|---|-----|
| 671 | HELEN HOLLIS. A bright red of first class quality.... | .25 |
|-----|---|-----|

I Cactus

| | | |
|----|--|-----|
| 81 | IRISISTIBLE. A splendid, very large good cut flower, variety of the most incurved and interlacing form. Color, yellow, but suffused with rose. A band of rose color running up each side of the florets, | .35 |
| 83 | INDOMITABLE. Variously described as a beautiful cerise or mauve pink, the tips of the petals being lighter which greatly beautifies the whole. The form is excellent with narrow petals of exceeding length and perfectly incurving making a flower that is a veritable champion for exhibition purposes | .35 |

- 84 INEZ (Stodard). A new, wide petaled hybrid cactus of great merit. It ranks with the best. The color is composed of various shades of pink and white. Large, with good stem and very free blooming,..... .50

I Decorative

- 385 IMMENSE. An enormous flower of a new shade with a petal of watered white streaked and bordered with rose cerise,50

J Cactus

- 91 JOHN RIDING. The plants are good healthy growers, producing very large blooms with interlacing and incurved petals of the ideal form. Its perfect form, large size depth, and deep rich crimson color, place it the front rank as an exhibition flower75
- 92 JOHANNESBURG. A monster, yet a sterling good variety, an early and late bloomer of surpassing size with perfect centers and on long, strong stems. Color, a glittering golden yellow50
- 96 J. H. JACKSON—the finest dark cactus we have ever seen. The flower is of the best type, long, narrow pointed flowerets incurved, brilliant crimson maroon, almost black, early and free,20

J Decorative

- 391 JACK ROSE. Resembles the rose of that name in color, a good bloomer,15
- 392 JEANNE CHARMET—immense flowers 6 to 10 inches in diameter on long wiry stems; pure white splashed with lilac pink at the edges and a tinge of yellow at the margins. A real good bloomer of supremely beautiful flowers.25
- 395 J. M. GOODRICH. This new dahlia is an acquisition of rare merit, and appears to be distinctly different from anything heretofore seen. The flowers, which are freely produced, stand well above the foliage on long, stiff, straight stems, twelve to eighteen inches in length. The color of these perfectly formed dahlias is pink, pencilled and tipped with pale gold, forming a very beautiful combination that pleases all beholders. In addition to all these virtues the habit is all that can be desired, being from five to six feet high and of a most upright growth. Flowers over 5 inches in diameter,35

J Show

- 692 JEANNE JOHNSON. A beautiful white flower with a picote edge of pale lavender. Free flowering long stem, good size,35

K Cactus

- 101 KALIF. Comes to us a real monster flower over 9 inches in diameter. Should be in every garden.
flower of good form, of a pure scarlet color. Held on erect, strong, stiff stems, making of it a good cut flower, blooming freely. This is the first dahlia to receive the highest award (a silver medal) of the German Dahlia Society, and is said to have been grown to almost a foot in diameter. Price reduced from \$2.50 to, 1.00

K Decorative

- 400 KAISERIN AUGUSTA VICTORIA—white, very free,25

L Cactus

- 110 LAWINE—the freest blooming white cactus we have found yet. Medium size good stem..... .15
112 LUCY (TITUS). A vigorous plant with large flowers of a glorious yellow tinted amber35
114 LIBELLE—a good bloomer, with large flowers of good form of a distinct purple color. Rich and pleasing, .. .15
117 LUSTRE—scarlet vermillion to crimson in centre. A good exhibition and all round variety,25

L Decorative

- 412 LE GRAND MANITOU. One of the very largest. Petals large and wide, high centres and very full, white ground heavily striped and blotched with a violet red,50
Dahlias will not do well without proper care.
413 LE GEANT. One of the largest and best, with a rich velvety red color and good long and strong stems,.... .35

L Show

- 715 LE COLOSSE—a soft red. This dahlia is distinguished by its colossal size, long stems, and also as a free bloomer. .50
716 LES AMOURS DE MADAM. Pale rose, tigered orange and scarlet,15

M Cactus

- 120 MARATHON. New, very large, and strikingly beautiful. Center yellow, shading to rosy carmine50
121½ MRS. CHARLES TURNER—a very large, clear, soft yellow, fine,15
122 MARGARET BOUCHON—a wonderful dahlia of great beauty. It is large, of fine form and the color and arrangement of the petals is simply entrancing. Petals long, slim, of a nice shade of light pink with lighter centre. Centre not always perfect, (but with all thy faults I love thee still),..... .50
1220 MRS. J. EMBERSON. A distinct fancy, with large incurved flowers of a pale-lemon, splashed and speckled with rosy pink.30
123 MASTER CARL—a gigantic dahlia of perfect form and habit. Color pleasing, bright amber. A great improvement on lovely Eynsford..... .25

| | | | |
|------|---|---|------|
| 1230 | MRS. FERDINAND JEFFRIES. | Rich deep velvety garnet of large size, h. 4, S. 12, dia. 6 | .25 |
| 124 | MAUVE QUEEN—a distinct and beautiful variety, formed of long tubular petals, incurved. Color a pleasing shade of clear mauve. Shading lighter towards center, | .35 | |
| 124½ | MELODY. | Very large of true cactus form. Yellow with white tips. Exquisitely and surprisingly beau- tiful | 1.50 |
| 1240 | MME. AUG. CHOULET. | Slender petals, yellow lined with red fire, | .25 |
| 125 | Mrs. CLINTON—a beautiful, deep amber, shading to rosy scarlet with a finish difficult to describe | .15 | |
| 125½ | MRS. SEALE. | A superb, large, distinct and attractive variety; deep, very rich crimson, each petal being dis- tinctly and regularly tipped with flesh pink. 3 ft. | .35 |
| 1260 | MLLE. MARIE DOUCET. | One of the freest-flowering varieties; of good size on long stems, fine for cut- ting. Color a lively mauve-pink, shading to white at the centre | .25 |
| 127 | MRS. H. J. JONES—scarlet edged cream, tipped white, .. | .20 | |
| 127½ | MERCURY—yellow striped and splashed crimson, very large and striking. Curled and twisted petals. | .35 | |
| 128½ | MRS. HENRY RANDLE. | One of the best of fair size, nicely incurved form with charming color of cream changing to soft rosy tint and distinctly tipped creamy white. Perfect stems | .75 |
| 1280 | MRS. C. H. BRECK. (C. Titus). | New, of the very first class. The color is creamy yellow, passing to various shades of rich rose pink; very free blooming. | .35 |
| 129½ | MISS STREDWICH. | New large, flowering, of fine, in- curved form, with perfect center. Soft yellow, chang- ing to a delicious, deep pink, lightening to the tips. extra good with excellent stem | 1.00 |

M Decorative

| | | | |
|------|------------------|---|-----|
| 421 | MARY GARDEN. | An extra good, large, clear lemon yel- low; stems long and strong, free, | .35 |
| 4210 | MME. A. LUMIERE. | A very distinct and very pleasing variety. The flowers are of medium size, pure white tipped violet red making a fine bright and startling contrast, | .25 |
| 4211 | MARION. | New. Very large and fine. Yellow suffused with old gold, | .50 |
| 4212 | MME. AYMARD. | Very fine shade of mauve. Extra good variety. | .25 |
| 4213 | MYSTERY. (DWYER) | This dahlia is a marked im- provement on Sou. G. Doazon which it resembles. The color is better, not so brickey in shade, the pet- al is finer and the center is better. It sometimes comes with every petal uniformly and distinctly tipped with | |

white and shading with pinkish color to red. In these colors it is the best we have seen of this description. Have grown this dahlia for years hoping to get a large proportion to come with this beautiful combination of colors. This is a mystery we have been unable to solve and if you would like to try it you can have a root for

.35

| | | |
|------|--|-----|
| 4222 | MME. MARZE. New, a magnificent large, pure white of faultless form. By some considered to be the best white decorative | .35 |
| 4220 | MRS. J. GARDNER CASSATT. A large-flowered variety of elegant shape, mauve-pink of a shade that is very pleasing in a Dahlia; a fine cut flower | .25 |
| 4240 | MLLE. JEANNE CHANTRE. Of a beautiful rose color with a white centre. Very large beautiful flowers with large petals, blooming abundantly; branches out from the base with strong stiff stems. A very desirable plant, | .25 |
| 4250 | MAMMOUTH. A very large flower, frequently 7 inches in diameter on good long stems of a bright scarlet | .35 |
| 4260 | MME. VAN DEN DAEL—a charming, soft rose, with deeper markings, shading to white in centre. A very satisfactory dahlia. | .25 |
| | MRS. CHAS. ALEXANDER. Rose pink shaded to yellow in centre, | .15 |
| 427 | MINNIE BURGLE. We take great pleasure in presenting to our customers this grand new dahlia. For several years we have been looking for the very best red dahlia for our cut flower trade. Many experts have seen this dahlia and all agree it is the best they have yet seen for this purpose. The color is a glorious bright red, of excellent form, with a darker center. The stems are long and carry the extra large flower well above the foliage. The bush is a vigorous grower and of good upright habit about five feet high. Good for exhibition and garden; has a good root system. | .50 |
| 4289 | MAMAN ROZAIN. An enormous flower of a Tyrian purple, edged white. New. Sometimes all purple | |
| 429 | MAROCO—rich, deep purple, strongly marked white. A very striking novelty, | |
| 4290 | MANITOU. Immense size, full center, often eight inches in diameter. The color is pleasing, being an amber bronze with a distinct shading of pink. Not suitable for cutting, as the flower is too large and the stems rather short | .25 |
| | | .25 |

M Show

| | | |
|------|---|-----|
| 721 | MAD. HEINE FURTADO—a very large, white, blooming freely with good exhibition flowers, | .25 |
| 7211 | HENRIETTA SCALABRE. This is not a monster, but it is very remarkable for its perfection of form, the well shaped, pure white, lovely petals are placed with wonderful precision, and taken altogether its form, size, freedom of bloom and excellent habit, make it a first class dahlia, | .25 |
| 7220 | MRS. GORDON ABBOTT. A 5½ in. flower, full and double, of a bright golden yellow speckled and striped intense scarlet; blooms freely, | .50 |
| 7241 | MRS. ROOSEVELT. Remarkably free flowering and immense size. Color a delicate silvery rose, | .25 |
| 725 | MRS. GLASSCOCK—large, pure white, one of the best, .. | .25 |
| 726 | MRS. LANGTRY—cream peach and purple, | .25 |
| 727 | MRS DEXTER—salmon, full, | .15 |
| 728 | MOLLALA. Large blooms of lemon yellow tipped white | .20 |
| 729 | MAUDE ADAMS. Medium size, but universally admired. Color white, delicately tinted a pearly pink Fine for floral work. Stems all right, free flowering | .25 |

N Cactus

| | | |
|-----|---|-----|
| 131 | NIBELUNGENHORT. Somewhat resembles that sterling, well-known variety Wodan, but Nibelungenhort is a wonderful improvement in the beauty of its coloring which is a beautiful shade of old rose with golden-apricot suffusion; also in size with flowers from seven to eight in. diameter. A fine cut flower on long stems | .75 |
| 133 | NEW YORK. Very large with incurved petals of orange in centre, shading to salmon rose with bronzy edges. New, | .35 |

N Show

| | | |
|-----|--|-----|
| 731 | NATIONAL BEAUTY. (T. J. Murphy). A wonderful improvement on Jack Rose and American Beauty. Color a very rich dark ruby red with a perfect form, extra large, with a good long stem and blooming freely. New, | .75 |
|-----|--|-----|

P Cactus

| | | |
|-----|---|------|
| 150 | PARZIVAL. A splendid cream white; a free and early bloomer, on long, stiff stems | .25 |
| 151 | PIERROT. New. Very large, striking and unique novelty in color, of unusual grace and refinement in form, being composed of long, tubular, narrow incurving petals, of a deep amber color, usually showing white tips on long stems, altogether a first class exhibition variety | 1.00 |
| 152 | PINK PEARL—mallow pink, changing to white at tips. Very fine for cutting. | .25 |
| 153 | PRIMA DONNA. A very fine white, possibly the best... . | .50 |

We have about 300 kinds not in catalogue. Send us your wants, probably we can supply them.

- 155 PHOENIX. New, color a deep rich, carmine red, each petal when opening having a broad stripe of cardinal red through the center; a most brilliant and rich color combination, and very distinct35

P Decorative

- 450 PAPA CHARMET—very large flowers of a beautiful deep crimson maroon. The finest and grandest dahlia yet offered of all the dark decoratives. Stems long. First class for cutting25
 451 PHENOMENE. Salmon suffused light amber25

P Show

- 752 PERI. White tipped with lavender25
 758 PURPLE DUKE. (Bell). A large flower quilled much like G. D. Alexis25

Q Show

- 768 QUEEN OF THE BELGIANS. Cream and white. Exhibition flower,20

R Cactus

- 1720 RICHARD Box. Clear, light yellow, totally distinct from "Golden Wave," the form being perfect while the color is a much lighter and softer shade of yellow, yet by no means less attractive. A strong feature of this variety is the ridgity of the stem, the blooms being held erect in spite of their great size and weight. It flowers early, and maintains a steady average of fine flowers throughout the season, 1.00
 173 REV. T. W. JAMIESON. Large, exhibition flower, with long, incurved petals of a bright mauve pink illuminated with salmon at base of petals,35
 1740 RED ADMIRAL. New. One of the most brilliant dahlias in existence, the color being a rich fiery scarlet; blooms of the largest size; full in centre and of best possible type. The plants are free,25
 178 REV. DR. BAKER. Clear, plum color; flowers freely on long stems35
 179 RUTH FORBES. Clear pink, large; stems long and stout. A fine variety for decorating. 4½ ft..... .25

R Decorative

- 472 ROYAL PURPLE. Same as Lee G. Manitou except that the color is a nice shade of rich purple, large flowers, stout stems.35

R Show

- 777 ROSE. A remarkable dahlia of novel formation; each large tube has a smaller one inserted; the stems are long and straight, carrying the rose colored flowers high above the foliage; well liked25

S Cactus

| | | |
|------|---|------|
| 181 | SOVEREIGNTY. Probably this is the largest yellow cactus to date. The growth is very strong and produces good flowers all through the season. The best exhibition yellow in size, form and color that we have seen. One of the prize winners in Boston and New York. Five to six feet high with a grand stem | 1.00 |
| 18 3 | SWEETBRIAR. Superb variety, of an exquisite shade of rose pink, very free on good, stiff stems, | .50 |
| 184 | STRAHLEEN KRONE. Intense, rich, cardinal red, | .15 |
| 186 | SYLPHIDE. A beautiful rose pink, good | .25 |

S Decorative

| | | |
|-----|---|------|
| 482 | SULPHUREA. Sulphur yellow with long petals throwing back like a Japanese chrysanthemum. The blooms are very large, free to flower early and constant: one of the best ever sent out | 1.00 |
| 486 | SANTA CRUZ—new and scarce, clear canary yellow tipped carmine. Flowers very large, full and strikingly beautiful. Free bloomers; stems good, | .50 |
| 488 | SOUVENIR DE GUSTAVE DOAZON—an extremely large, full flower of an orange red. Blooms very freely, on long stems; plant very tall and vigorous, | .15 |

S Show

| | | |
|-----|---|-----|
| 784 | SUZAN WILSON One of the best. Yellow, overlaid and flaked carmine red, long stems. Very large and free. | .50 |
| 786 | SOUVINIR. Scarlet edged white. Very striking and pleasing. 4 ft..... | .25 |
| 787 | SUNSET. A rival of Mrs. Gordon Abbott, but not quite as good, of a similar color, | .25 |

T Cactus

| | | |
|-----|--|-----|
| 190 | T. G. BAKER. Fine, very large, on stiff stems, clear canary yellow | .25 |
| 191 | THURINGIA—light flame color with deep orange tints. Large blossoms on long stems. One of the best. | .25 |
| 192 | THUSNELDA. Soft, pink, yellow base. 3½ ft..... | .15 |
| 194 | THAIS. The rather broad petals, which are loosely arranged, make up an informally shaped flower which, on account of its color, a pure white, with a soft mauve suffusion which is deposited over the snowy petals like dew, makes it one of the most delicately colored sorts which we have yet offered. Hybrid cactus, | .50 |
| 196 | TORPILLE. Dark reddish pink, striped with white; very odd. Full, well shaped blossoms. Desirable as a novelty, | .25 |

T Decorative

| | | |
|-----|---|-----|
| 502 | TENOR ALVREZ. One of the largest dahlias in existence, of its class. The plant grows fully 4 feet in height: color of flowers bronze red, splashed and striped with velvety brown. Petals are quite broad, rather flat, making the flower appear entirely distinct, | .25 |
|-----|---|-----|

V Decorative

- 512 VILLES DE MANTES. Bright crimson, well tipped with white; a perfect, full flower on good stems; a fairly free bloomer, and well worth having, 3½ ft..... .25

W Cactus

- 221 WACHT AM RHEIN. New. The introducers claim to have proved this to be probably the most beautiful cactus variety offered in 1915. This same grower has heretofore sent out several of the best varieties known to the trade. The color is an ideal soft, rosy pink with a white suffusion. The flower is large and graceful; the stems are splendid for cutting75
- 223 W. S. SISSON (Stodard) Hybrid Cactus. Yellow, pink and white, nicely blended, large flower, good bloomer, .35
- 225 WODAN—this proved the best out of five new dahlias of 1911. Everybody wants it. Very large and different from any other in form and color. Petals semi in-curved, gracefully arranged with pleasing combination of delicate salmon, shading to old gold..... .35

W Show

- 823 W. W. RAWSON—a very beautiful dahlia, a wonderful improvement on Grand Duke Alexis in form, centre. Stem and the habit of the bush, 3 ft25

Y Decorative

- 540 YELLOW COLOSSE, TRUE (not Yellow Le Colosse)—flowers of enormous size and perfect form, purest primrose yellow and grand for all purposes. Plant dwarf25

POMPON DAHLIAS

- AMBER QUEEN. Rich, clear amber. 3 ft..... .10
- BRUNETTE. Crimson, blotched white,10
- BELLE OF SPRINGFIELD. Very pretty shade of light red. The smallest dahlia known. Very round and regularly formed blossoms of diminutive size. 2½ ft..... .10
- CAPT. BOYTON—best deep maroon,15
- CATHERINE—finest pure yellow.15
- CHALLENGE. Deep crimson, tipped and blotched white. .10
- ELEGANTA. Soft pink, tipped deep pink..... .10
- ELFIN. A small, charming pale primrose that does its duty well..... .10
- FRAU DR. KNABE. Rose tinted white, with violet tips, probably the most closely quilled variety grown. 3 ft. .15
- FRAU EMIL HENECKE. Pink..... .10
- GRATCHEN HEINE. Blush white with light rose tips.. .10
- GRUS AN WEIN. Crushed strawberry15
- JEWEL. Small, neat first class in every way; white sometimes tipped with yellow; extra good..... .25
- KLEIN GRETCHEN. White, shaded crimson..... .10
- NEATNESS. Very pale fawn, with edges of petals just touched with lavender.10
- NERISSA. New. Soft pink, tinted silver10
- RED INDIAN. Deep red.10
- ROSA. A most charming new variety of a bluish lilac color; extra fine in every way good..... .25
- WHITE BEAUTY. Most perfect white. 5 ft..... .10

PEONY FLOWERED

| | | |
|-----|--|-----|
| 900 | AUTUMN GOLD. A fine free blooming, extra large dahlia with good stems. Color real autumn shades..... | .50 |
| 901 | AVALANCHE. The best white peony flowered dahlia that we have ever seen. A large flower with good stems and blooms well. Keeps well as cut flower.... | .75 |
| 913 | BERTHA VON SUTTNER. Color beautiful salmon pink, shaded yellow: the flowers are of elegant form and carried erect. The plants are very sturdy with long stems and immense flower, borne freely .. | .35 |
| 931 | CECELIA. A large pale yellow, free blooming and first class exhibition flower. Long stems carrying the flowers well up | .50 |
| 932 | DR. PEARY. Dark, rich, velvety mahogany. Extremely large on long stems. New, | .50 |
| 934 | DR. H. RUSBY. An immense showy elegant flower on good stems. Color lemon yellow at times shading to white. Pointed petals; blooms vigorously..... | .75 |
| 933 | DUCHESS of BRUNSWICK. Large flowers, good stems. Red with apricot on reverse side of petals: very satisfactory: First class certificate in Amsterdam. | .50 |
| 959 | FRIGOLA. This is classed as a paeony flowered dahlia but we would prefer to call it a duplex single. While not a large flower on account of its very striking appearance it makes a large show in the garden. It comes quite true to its color, a blood red petal with a white tip. Very effective as a cut flower | .50 |
| 951 | FLUFFY. (George B. Gill). We introduce this lovely new dahlia as one of the best. It is a seedling of Geisha, of good large size, with a graceful stem. Color, dark red, the twisting petals showing the reverse side to be a creamy yellow, contrasting beautifully with the rich coloring of its face | .50 |
| 964 | GARIBALDI. Dark garnet, free blooming, on good stems, | .20 |
| 963 | GERSHA. The most striking dahlia of any class we have yet seen. The plant is of exceptionally strong growth and the foliage is distinctly different from any other. It is difficult, if not impossible, to find two flowers alike. Flowers are immensely large and the wide long petals are very fantastically twisted and curled in combination with a rich coloring of scarlet and gold that altogether makes a remarkable show. It is also among the very freest of bloomers, putting its flowers on long, wiry stems high above the foliage, | .50 |

| | | | |
|------|-----------------------------|--|------|
| 965 | GERMANIA. | Brilliant strawberry red. Free..... | .25 |
| 966 | GLOIRE DE BUORN. | Delicate soft pink. Free and fine. | .25 |
| 962 | GREAT BRITAIN. | New and rare. Said to be very large deep mauve, perfect form and a fine exhibition flower. One of the best | .75 |
| 974 | HAMPTON COURT. | A bold flower of good form; of a bright mauve pink. One of the best yet introduced | .50 |
| 999 | JOHN WANNAMAKER. | New. Very free blooming on good stems. Color a pleasing shade of violet mauve . | .35 |
| 912 | LA RIANTE. | A most beautiful shade of deep pink; free; stems long | .20 |
| 911 | LEMON KING. (T. J. Murphy). | One of the best large lemon yellows. New. | .50 |
| 922 | MME. J. CROISSARD. | Clear white with colored center. bordered with bright red. A good strong, vigorous plant, | .50 |
| 982 | MANNHEIM. | Rose shaded with orange | .20 |
| 926 | MRS. GEO. GORDON. | An extra large creamy white, fine for exhibition and very satisfactory in every way. | .50 |
| | MRS. CHAS. SEIBOLD. | A distinct bright pink, each petal tipped white. One of the best of paeonia flowered, striking and beautiful..... | .25 |
| 984 | MONS LEE NORMANDE. | Very large yellow frequently tipped white and sometimes striped crimson. We consider this to be one of most interesting and surprising as well as one of the most beautiful of all dahlia s. The flowers are of good form and produced freely on proper stems | 1.03 |
| 925 | MRS. R. C. WINTHROP. | We take great pleasure in announcing that we persuaded Mrs. Winthrop to allow us to use her name in honor of this new introduction of ours. This dahlia is one that captivates the eye at first glance and soon takes the heart also. Its steins, its large size, freedom of flowering, elegant curling petals and varying combinations of delicious yellow and white make it so fascinating that you can close your eyes and see it, in all its beauty at any time of the year..... | 1.50 |
| 950 | PHENOMENAL. | A large flower, said to grow up to ten inches across. The color is a new and remarkable combination of red purple violet yellow and white. Its many petals are twisted and curled, taking it altogether it ranks among the best | .50 |
| 958 | PHILADELPHIA. | A splendid, very free, continuous blooming dahlia. Color, deep carmine, changing to soft pink in center; fine | .35 |
| 991. | P. W. JANSEN. | Fine orange, large, handsome on stiff stems. | .20 |
| 926 | SOUTH POLE. | This is said to be a very fine, new, white, even better than Q. Wilhelmina | .35 |
| 962 | QUEEN WILHELMINA. | An elegant pure white giant flower. with yellow centre. Fine for cutting. | .25 |
| 97 | RUDDIGORE. | Is described as purple, pink and yellow, exquisitely suffused. Well, we think it is near homely and odd enough to be almost handsome..... | .25 |

SINGLE DAHLIAS

| | | |
|---|--|-----|
| ALBA SUPERBA. | A good, pure white | .15 |
| BELFAST. | Large, single, scarlet; very fine, 3 ft..... | .25 |
| 20TH CENTURY. | Single, bright rosy crimson, with base of flower pure white; good..... | .15 |
| THE BRIDE. | Extra large, firm white..... | .25 |
| CARDINAL. | One of the best in size, color and form .. | .25 |
| ECKFORD CENTURY. | White, spotted and pencilled crim- son. The largest of the Centurys | .25 |
| GLACIER. | This is the best single white we know of out of many that we have tested. A wonderful bloomer with fine large flowers | .35 |
| MERRY WIDOW—gigantic flowers, deep scarlet on firm, long stems, free blooming. Color bright and effective. | .25 | |
| MILDRED C. SAUNDERS. | One of the largest and most showy. Yellow blotched and splashed with red; good stems. Good for cutting, | .35 |
| PINK CENTURY | .15 | |
| PURPLE VELVET. | Large, and blooms freely..... | .25 |
| ROSE PINK CENTURY. | Large, clear pink; good form and substance | .25 |
| SOV DE FRANZ LEITZ. | Color, deep rich garnet, and may be said to be somewhat double, as it has about three rows of petals of large size; can be grown to seven inches. A good grower, and a prolific bloomer. Very desirable. 3 ft..... | .25 |
| SCARLET CENTURY. | Brightest scarlet golden disc..... | .15 |
| SOMMERSWORTH. | One of the best of the newer varie- ties. The petals are somewhat twisted and in color an intense scarlet with a broad band of gold around the disc, | .35 |
| UNION JACK. | New. A good, free bloomer on a good long stem, on a good bush with a good habit; flower of extra good size. Color a good pure white bordered with a good scarlet. Helvetia Danish Cross and Sen- sation have same similarity in color but they all throw more or less solid scarlet flowers. The Union Jack we have tried for three years and find it to come good and true to its colors | .50 |

Collarette dahlias

| | | |
|------------------|---|-----|
| MONS L. FERRARD. | Large, purplish garnet; edged and marked white. Collarette is white with carmine markings. Extra fine | .35 |
|------------------|---|-----|

GLADIOLI

These Gladioli are among the best that the world has produced.

AMERICA One of the best ever grown. Flowers very large and massive, of a beautiful shade of soft pink. Popular as a cut flower and often seen in the best Boston florists.

5¢ each, 50¢ a doz., \$2.00 a hund.

HALLEY Delicate salmon pink, with a slight rosy tinge, lower petals having a creamy blotch with a bright red stripe in center. 5¢ each, 50¢ a doz., \$2.00 a hund.

IDA VAN Brilliant, lincoln red with darker shade on lower petals. Large wide open flower on long spike. 10¢ each, \$1.00 a doz. \$6.00 a hund.

SCARSDALE Delicate lavender, with pink, a deeper shade of lilac. Spikes long and slender. A distinct and pleasing color. 10¢ each, \$1.00 a doz.

BARON HULOT Dark rich violet, bordering on blue. 10¢ each.

GOLDEN KING Fine yellow. Tall and stately in habit it commands instant attention by its unusual blending of colors, a bright red throat in a large wide open golden yellow flower, well placed on long spikes. 15¢ each, \$1.50 doz.

PANAMA A great improvement over its parent America, of a deeper and beautiful shade of pink. 15¢ each, \$1.50 doz.

PEACE. Extra large, beautiful white with inferior petals lightly feathered pale lilac. 10 cts each; \$1.00 per doz.

MRS. FRANK PENDLETON Perhaps the most remarkable gladiolus ever produced. A strong grower 4 to 6 feet high. The flowers are quite large and the foliage ample. The color is a most exquisite salmon pink with a conspicuous blood red blotch in the throat making it altogether a flower once seen that will always be remembered. 15¢ each, \$1.50 a doz.

MRS. FRANCIS KING A very large and beautiful light scarlet that calls your attention and commands your admiration on sight. 5¢ each, 50¢ a doz., \$2.00 a hund.

ZAIDEE (Spencer). White, tall vigorous with straight stem and more flowers open at once than any we have ever seen. 12 cts each; \$1.20 per doz.

IRIS

At 15 cents each, except where price is mentioned
DUC DE NEMOURS. Standards white, falls blue.
FLAVESCENS. A good light yellow.
FLORENTINA ALBA. Very free flowering white. Early.
INTERREGNA INGEBORG. White; flowers 5 in. across. 50 cts.
JAPANESE IRIS in variety.
MAD. CHEREAU. White with blue feathered edge.
MRS. NEUBRONNER. The finest golden yellow.
PALLIDA DALMATICA. One of the most exquisite of the Germania type. Of strong vigorous habit, grand foliage, and under favorable conditions 4 ft. high. Standards delicate lavender, falls lavender shaded blue. Fine for massing. 25 cents each,
PRINCESS OF WALES. White, with touch of blue in center. Very sweet perfume.
PSEUDO ACORUS. Golden yellow. Likes a moist situation.
QUEEN OF MAY. Rosy lilac. Fine.
RHEIN NIXE. Standards pure white, falls deep violet-blue, with white margin; will attain height of 3 ft., with many branched stems, free flowering, 25
SIBIRICA ORIENTALIS "SNOW QEEEN". As a strong, free growing Iris, this new variety possesses all the merits of the type, differing only in color, which is pure white.
TRAUTLEIB. (New). A lovely, uniform, soft rose .
YELLOW with purplish veining in falls.

We offer the best varieties of——

ATTENTION ORDER BY THE DOZEN

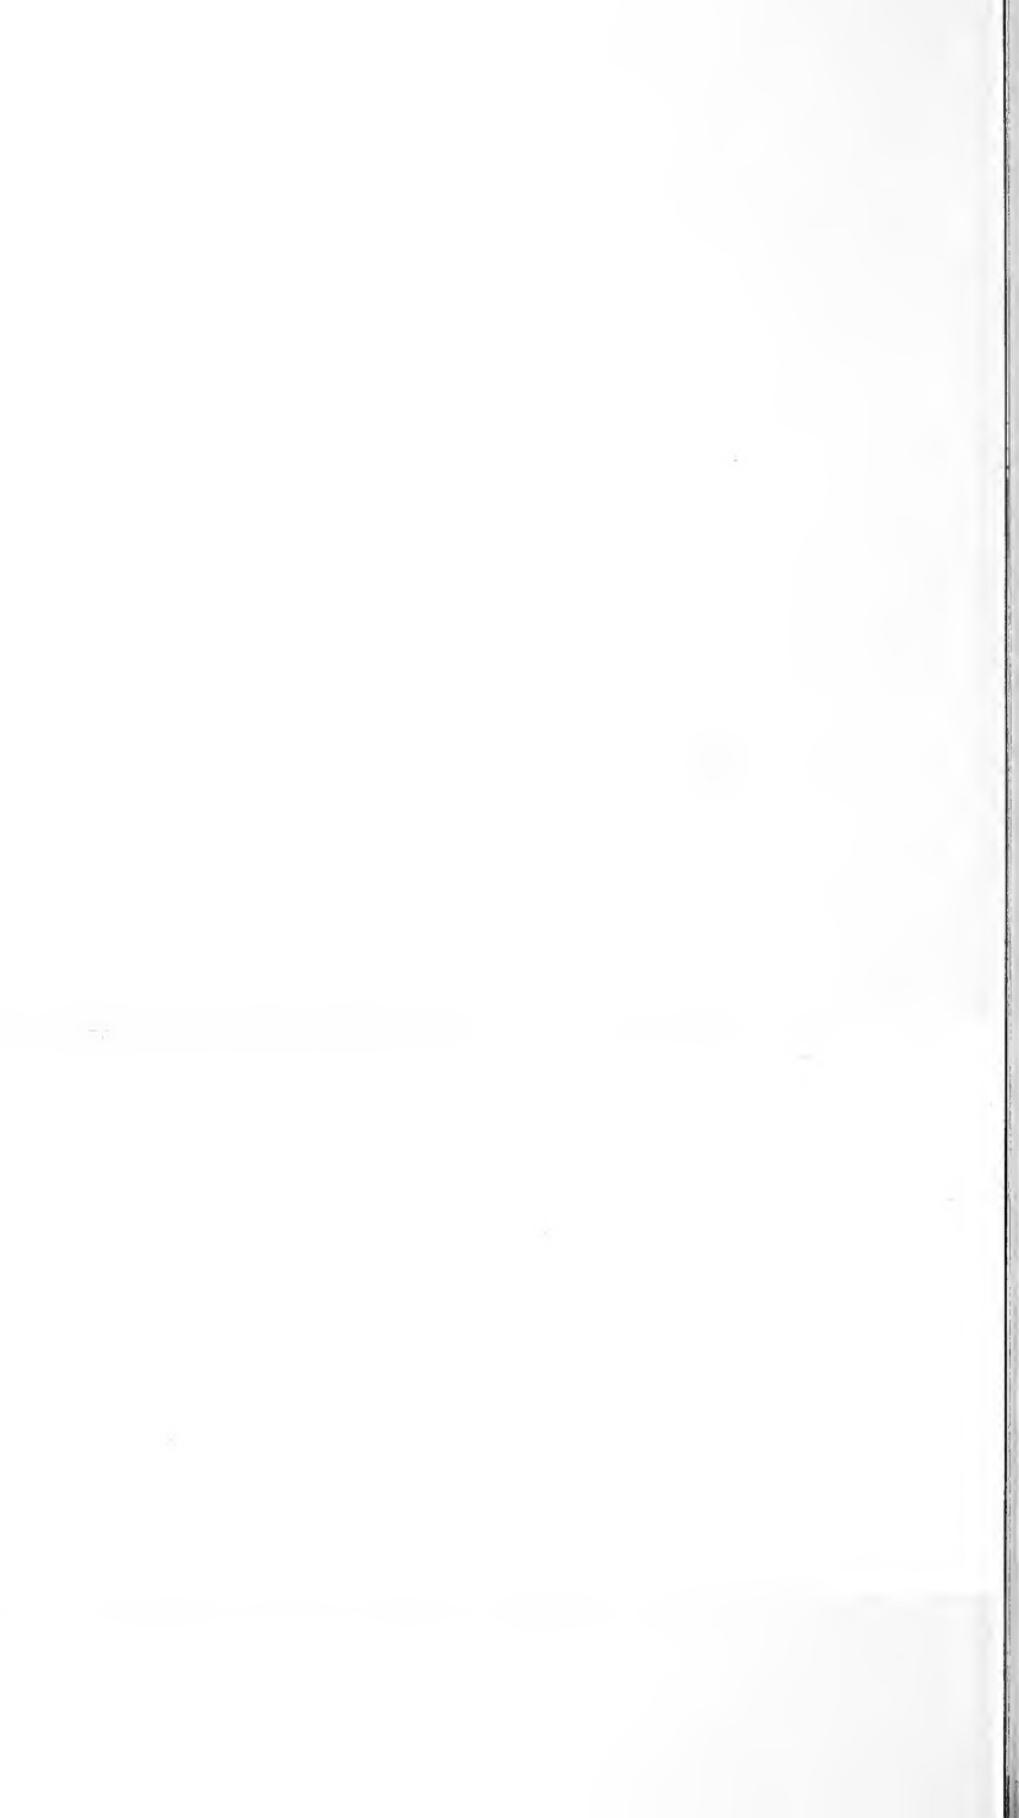

Order 12 or more Dahlias, Phlox, Iris, Gladioli, Hollyhocks or Chrysanthemums, take one-sixth off of the price, send cash and we will send by Parcel Post, prepaid.

We have about 300 kinds not in catalogue. Send us your wants, probably we can supply them.

Do not let dahlias suffer for water.

Dahlias will not do well without proper care.

See the seven bargains on page four of our catalog.

The New Clematis, "Ina Dwyer"

THIS NEW CLEMATIS is a seedling originating in the gardens of E. F. Dwyer & Sons, Lynn, Mass. The flowers measure fully two (2) inches across and are poised on long stems well above the foliage, having 25 to 50 beautiful, sweet scented flowers to a stem.

The blossoms are white shaded to a blue on the edges and tips of petals, being produced in marvelous profusion. As the petals mature, they fall off leaving the vine neat and attractive at all times. This is a valuable feature as well as the fact that it blooms at a time (from the first to the last of August) when there is no other vine in flower that rivals it in beauty.

Should bloom the same year it is set out.

It is an exceptionally strong grower, thickly covering a trellis 9 feet high and 10 feet long.

The Massachusetts Horticultural Society has awarded it a First Class Certificate by unanimous vote of its committee.

Price 50 to 75 cents.

Double Hollyhocks

\$1.50 per doz.

Hollyhocks are usually catalogued as hardy. We list them as biennials or triennials. The single, especially, and sometimes the seeds of the double kinds come up most anywhere in the garden, and flower the second year. The plants we offer are from the seed of the celebrated Chater strain, and will bloom this year, as they are extra heavy and strong roots. We have—

White, Pink, Yellow, Flesh White, Red and Maroon at 15 cents each.

Hardy Chrysanthemums

\$1.50 per doz.

The so-called hardy Chrysanthemums are not reliably hardy in this locality, but the varieties listed here will usually come through all right as they are selected from the best and hardest, kinds but must have some protection, or the clumps may be lifted at any time after they are through flowering and before the ground freezes, placed in a box with sufficient earth to cover the roots well and kept in a cold cellar. We have them in—

Red, White, Yellow, Pink and Brown. These are all varieties that we have found very good and desirable. Price 15 cents

SILVER MEDAL

Awarded to Edward F. Dwyer & Son for Dahlias at the
Panama-Pacific International Exposition
